

# grocery pallet

**LIGHT WEIGHT – HEAVY DUTY – LOW PRICE**

HYGIENIC, CLOSED DECK, RACKABLE  
PALLET FOR FOOD INDUSTRY

1200 x 800 x 160 mm

**LIGHT WEIGHT** – only 14 kg, thanks to the new PATENTED DESIGN (developed with the help of finite elements analyses from ANSYS).

**HEAVY DUTY** – racking capacity of up to 1500 kg (assuming even distribution of load), and static loads of up to 5000 kg. Unsurpassed durability, thanks to the characteristics of the chosen material, recycled LLDPE, which has a very high impact resistance also in low temperatures. Invisible steel reinforcements in runners add strength and reduce deflection.

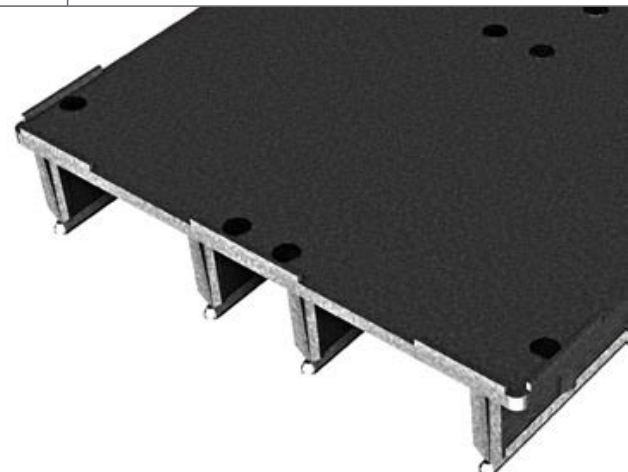

**LOW PRICE – 23 EURO EXW** – thanks to our innovative recycling techniques and the low weight of the pallet.

**HYGIENIC** – the pallets are approved for the use in the food and pharmaceutical industries.

**NON-SKIDDING SURFACE** – is created with the help of 16 rubber inserts, which are replaceable when damaged. Peripheral rims are optional.
